MAIN
TOPIC

A very
special Fair

A very special Automechanika

Due to the pandemic, Automechanika 2021 will be taking place in a different way than usual: hybrid. That means on the web, but also live on site. What happens where, who from the K + L scene is in Frankfurt, what is shown and what activities will be taking place - all this will be in our trade fair special.

Also in focus:

Paint shop trends

Combination booth or separate dryer? Multifunctional workstations or a real „paint line“? We asked the plant manufacturers to find out what the trends are in plant engineering and which and what technology highlights can be expected.

Working Clothes: „Not off the rack“

The demands on clothing are high: Functional, breathable, antistatic, lint-free... and it should also look well. We have researched what the market has to offer.

New ways to the colour tone

Something is happening in the field of color mixing systems and colorimeters. Several manufacturers are launching new devices on the market. This makes the search for the right color shade safer, faster and more digital.
